

Class Test 05

PL/SQL

To solve the following use the scott schema

1. Create a cursor that can output all the data from salgrade table.
2. Create a record that can output the id, name, job, and hiredate of the employee whose Id is 7654.
3. Create a trigger in such a way that whenever a new row is inserted into the salgrade table an output 'New Row Added' is generated.
4. Create a package that contains a procedure which can display the grade whose losal and hisal is passed as its parameter.

****After solving the above questions using Oracle 10g, write the PL/SQLs in a MS Word document (Write down the answer and give screenshot of the result of the query. The name of the document MUST be your ID and the PL/SQLs MUST be numbered accordingly) and upload it in the provided link in your VUES account**
